DETAILED ACTION

Response to Amendment

In response to applicant's amendment received 12/20/05 all requested changes have been entered.

Response to Arguments

Applicant's arguments, filed 12/20/05, have been fully considered and are persuasive. The previous rejection has been withdrawn. The Examiner further believes that the arguments do separate the invention from what the Examiner's interpretation was and is allowing the case. Please see more detail below.

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: After further searching and consideration, no prior art of record teaches/suggests the use of two different memories of differing speeds in the manner as claimed by the applicant. While the previously cited Ueda reference (U.S. Patent No. 6,538,764) discloses a similar technique of creating sub bands, it does not meet the requirement as stated in the claims of the first memory being larger and slower than a second memory used in the rendering of the sub bands.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kadota (U.S. Patent No. 5,604,846), Sodek et al (U.S. Patent No. 5,410,672).
